FSA OPENS CARLISLE OFFICE

After over two years of relationship building in the Carlisle and Central Pennsylvania region, FSA is excited to announce the opening of our new office in the heart of downtown Carlisle, PA. FSA's philosophy of working from the central business district of the community started in our corporate office located in Hagerstown, MD.

Since our founding in 1941, FSA has focused on offering full service surveying and engineering services to the local community and beyond with total client satisfaction as our primary goal.

Our Carlisle office builds on this tradition by offering a full range of land surveying, civil engineering, landscape architecture, land planning and environmental engineering design services. We are proud to be able to serve both private and public sector clients ranging from the individual homeowner to fortune 500 corporations as well as local, state, and federal government agencies.

101 North Hanover St, Carlisle, PA

On the Boards

FSA continues to provide engineering, surveying, and landscape architecture services throughout the quad-state area. Several of our projects presently on the boards are listed below. Look for them in future newsletters!
