

FIELD NOTES

FREDERICK SEIBERT & ASSOCIATES E-NEWSLETTER

BACK TO SCHOOL

Although Washington County's newest elementary school opened only a few weeks ago, the groundwork to establish Jonathan Hager Elementary School began over 3 years ago. Working with Washington County Public Schools, FSA sought and obtained approval from both the Planning Commission and Hagerstown City Council to amend the existing PUD overlay to create a zoning designation that allowed a school to be built in the Hager's Crossing Community. Following this redesignation, FSA concepted numerous designs for the Washington County School Board. Once a design was selected and finalized, FSA engineered construction documents and coordinated with the architect and contractors throughout the construction timeline.

On August 17, Jonathan Hager Elementary School welcomed students from Pre-K through Fifth grade to its state of the art facilities which feature multiple drop-off areas, recreational and sports fields, and the 65,000 square feet LEED silver status school and gymnasium. FSA congratulates Jonathan Hager's inaugural students and wishes them all the best of luck this school year in their impressive new surroundings.

Jonathan Hager Elementary School

On the Boards

FSA continues to provide engineering, surveying, landscape architecture and environmental services throughout the quad-state area. Several of our projects in the area of education which are presently on the boards or under construction are listed below. Look for them in future newsletters!

Shepherd Student Housing

Shepherdstown, WVA

Smithsburg High School Athletic

Facilities Study

Smithsburg, MD
